Are your utility regulations achieving desired results?

Don't guess or remain in the dark about possible regulatory effects.

Learn how to effectively and rigorously analyze and communicate the impacts of regulation!

The course Comprehensive Regulatory Impact Analysis (RIA) provides tools and approaches for RIA, a systematic appraisal of the potential impacts of a regulatory decision to assess whether the decision is likely to achieve the desired objectives and at what costs.
RIAD training is now available in two formats – online and live at the University of Florida. Applications available online July 2018.

NEW Live RIA Course
November 26 – 30, 2018
Limited seating!
You will spend five intensive days alongside PURC’s world-class faculty to structure your own RIA study.

Comprehensive Regulatory Impact Analysis – a PURC online course

WEEK 1: Overview
- RIA and Regulatory Process
- History and Development of RIA
- Elements of RIA

WEEK 2: The RIA Process
- Using RIA to enhance the regulatory process
- Rules of RIA
- Elements of effective RIAs
- Scenarios of possible events that require RIA

WEEK 3: Cost
- Compliance
- Implementation
- Timing
- Incidence
- Uncertainty

WEEK 4: Benefits
- Direct
- Indirect
- Timing
- Incidence
- Uncertainty

WEEK 5: Benefit Cost Analysis vs. Cost Effectiveness
- Cost-Effective Analysis
- Multi-Criteria Analysis
- Sensitivity Tests

WEEK 6: Further Applications of RIA
- Examples and critiques of RIA
- Risk Measurement and Mitigation
- Environmental
- Insurance and Modularity

Online RIA Course
Fall 2018
Course is delivered entirely online over a six week period. Weekly learning modules include recorded video lectures, reading materials and a course case study. Weekly assignment submission and active participation in discussion forums is required.
